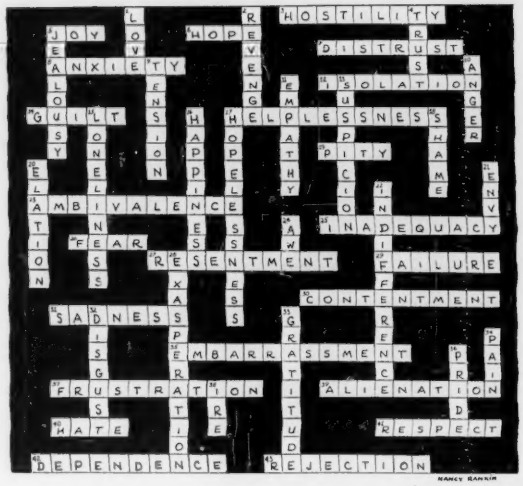
Answers To Puzzle



Heart attack or stroke could knock you down on your way up.

You're working for the challenge, the satisfaction, the success. The last *thing you want is a heart attack or* stroke. Yet, nearly one million Americans die of heart disease and stroke every year. And 200,000 of them die before retirement age.

The American Heart Association is fighting to reduce early death and disability from heart disease and stroke with research, professional and public education, and community service programs.

But more needs to be done.

You can help us find the answers by sending your dollars today to your local Heart Association, listed in your telephone directory.

American Heart Association

WE'RE FIGHTING FOR YOUR LIFE
